12.05.19 TAP Release
Corrected an issue where attendance was entered on a PAD case that was denied and then later a case was approved for the child but the attendance did not get moved over (or merged) to the new active case.
Added "user name" as one of the search criteria on the Operator>Search screen.
Corrected a misalignment issue on the Excel export of the Attendance Transaction Report.
Added the child's customized schedule to the caretaker screen in KinderConnect under the "My Information" section.
Removed the ability for a provider to enter a customized schedule for a private pay child.
Corrected an issue where school hours were deducted from a "school not in session" day.
Updated Help Files to include Customized Schedules and made several additional corrections that were needed for accuracy.
Corrected an issue where a second parent was added to an existing case but was not showing up in KinderConnect on the sponsor information page.
Adjusted effective dating to use the age of the child at the end of the week (Saturday) instead of what the child was at the beginning of the week (Sunday) to determine the rate of pay for the week.
Added "payment sweep" text to the Home page in KinderConnect.
Updated the Minimum Wage table to reflect the new minimum wage rate of $8.70 effective 1/1/20. The current minimum wage rate is $8.55.
Added the "provider county" as a search criteria on the Provider>Search screen and the "case county" as a search criteria on the Child>Search and Sponsor>Search screens.
When a child is on multiple cases, added the "case number" beside the child's name on the Customized List so that the provider knows which one of the children to select when assigning the schedule.
Added logic to not allow a child's date of birth to be less than 1/1/1980.
Changed the "School Information" section. "School Schedule" will now be shown as "Category Type" with values of: "Non-School", "School", and "Non-School (Special)". The "Non-School (Special)" will be used when the child is not

school age, but school hours still need to be deducted from the child's attendance.
Added "out of state" as one of the selections in the county dropdown box for "Provider>Search," "Child>Search," and "Sponsor>Search" screens.
Corrected an issue on the Attendance screen where the system was not allowing the user to change an absent day to a professional day (and vice versa) because the dropdown box with the arrow was not present.
Corrected an issue where the system was not allowing an "in" and an "out" in the same minute but seconds apart to be submitted for payment (For example, "in" at 8:00 am and "out" at 3:00 pm and then another "in" at 3:00 pm and "out" at 6:00 pm).
Changed the order of the fields on the "Sponsor>Search" screen so that all Child fields are grouped together.
