

10.27.22 TAP Release

Corrected an issue on the Sponsor Activities page of the tablet. Transactions now show a red circle with a number to alert the user there are missing transactions when using the tablet.

Corrected an issue that was giving an error message to new users when trying to complete account information while registering.

Corrected an issue concerning verbiage when clicking on an "expired" reset pin link. The user was being given the "Something went wrong" message instead of the message "This password reset link is invalid. Please request a new link and try again."

Corrected an issue that was preventing the sponsor from seeing and approving pending transactions while using the tablet.

Added functionality to view 1099's showing all payment information from the previous tax year. (Note: this will only show for tax years 2022 and beyond)

Corrected an issue allowing the user to be able to click the eye icon (to view the password) at any point during or after entering the password and before clicking the 'Save' button.

Added functionality to view and print the program's 1099-NEC document (Note: this will only show for tax years 2022 and beyond)

Corrected a rare issue where the sponsor's name would be missing on the Child Search results grid for a case.

Corrected an issue preventing the red "attendance saved" message from appearing on the Attendance Detail page when clicking the save button.
