

03.02.23 TAP Release

Provider Data and Rates will begin to be sent directly from OCLQS into TAP instead of coming from OCLQS to our Legacy CCIDS system and then into TAP.

Corrected an issue that nothing was being downloaded when clicking on the Export button from the Attendance > Transactions page. This issue was initially tested and moved into Production as a "hot fix" on 1/31/23 but was retested during this release.

Corrected an issue where the banking information was not always being updated in TAP after it had been changed by the provider. This issue was initially tested and moved into Production as a "hot fix" on 1/31/23 but was retested during this release.
