01/12/2024 TAP Release	
Issue	**Resolution**
Programs are unable to submit attendance for school age children during the school year without a customized school schedule being present however, the sweep will pick up this attendance in error and the payment calculates as $0.00. This results in programs needing to submit payment alerts.	The sweep no longer picks up attendance for school age children during the school year that do not have a customized school schedule present. Once a customized school schedule is present the program can submit the attendance and/or it will be picked up in the next sweep.
A service week with an attendance entry was submitted for a child by a program. The system then appeared to still be available for a sponsor to submit additional attendance for this same child for the same service week. This gave the appearance the payment calculated would include the additional attendance that had been entered by the sponsor after the week had already been submitted by the provider. This attendance was not included in the payment calculation correctly due to the status of the service week when it was entered. The sponsor should not have been able to enter attendance once the service week has been submitted by the provider.	The system will no longer allow a sponsor to enter attendance for a service week once it is in a submitted status. If additional attendance is to be entered, the program will need to recall the attendance before the sponsor will be able to add additional attendance.
Sponsor appeared to be able to approve attendance transactions after the attendance had already been swept. This resulted in the attendance approved after the sweep showing in the system but was not included in the payment calculation correctly due to not having been present when the sweep occurred. The sponsor should not have been able to approve attendance after it had been swept.	Sponsors will now receive an error message if they try to enter or approve attendance for a service week that has been included in the sweep period. There will not be an option for a sponsor to approve time entered by the program after the sweep period has occurred.
