

KinderConnect – Add New Operator

Operators are all system users able to access the Program’s KinderConnect account. A Program can add more than one Operator. You should always **Search** for the Operator before adding a new one to avoid duplication.

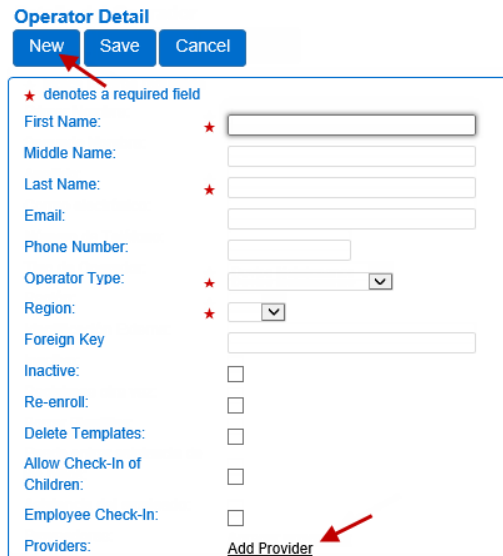

A Click **Detail** under **Operator**.

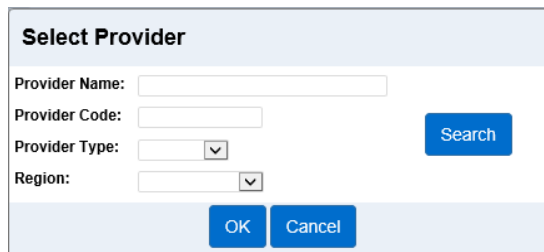

B Press **New**, then enter the required information of the Operator indicated by a red asterisk (*) and click **Add Provider** to add the Program name.

Note: Every Program must have at least one **Operator** with the role **Program System Owner**. Ensure that your Program has at least one **Operator** with this role.

Note: Checking the **Inactive** check box will inactivate the **Operator**. This **Operator** will not be able to logon if this is checked.
